Would like to see the site capped to prevent gas from leaking.

Would like to see something done this time, not just push us around like they have for the past 40 years. Also think you should go back on some of those who are responsible for dumping out there.

I was involved in a lawsuit for a long long time but had to get out of it after my husband died because I couldn't afford it any longer.

And there're doing all kinds of illegal dumping out here now and that's not right.
